**ZEUGMA**  
 BRIDGE TO HISTORY

### The City of Mosaics

Zeugma Gateway, which was founded by Seleukos I, one of the generals of Alexander the Great, means bridge. Zeugma, which experienced its heyday in the 2nd century CE, was one of the most important cities of Roman Empire.

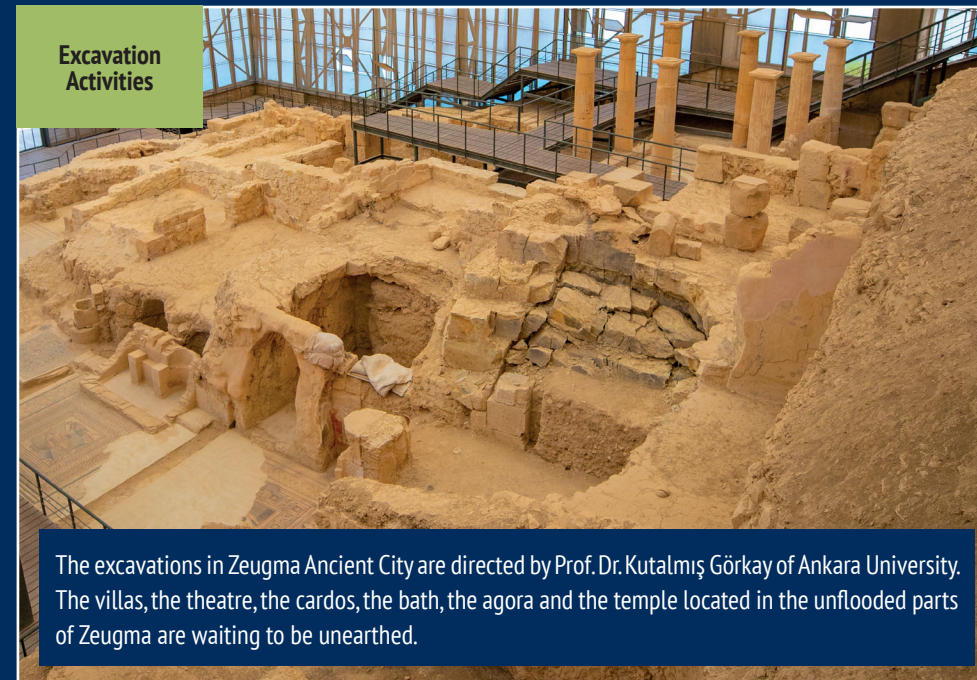

Zeugma was a splendid city where high-ranking officers resided, as the headquarters of the 4th legion was located there, and rich merchants lived due to the strategic advantages of the city.

### Mars Statue

One of the unique artifacts displayed at Zeugma Mosaic Museum is a Statue of Mars, God of War. The Statue of Mars was found during rescue excavations in 2000 in an area that can be described as a basement, under the food pithoi in Poseidon Villa.

### Excavation Activities

The excavations in Zeugma Ancient City are directed by Prof. Dr. Kutalmış Görkay of Ankara University. The villas, the theatre, the cardos, the bath, the agora and the temple located in the unflooded parts of Zeugma are waiting to be unearthed.

### Mars Statue

Mosaics provide important snapshots of the lives of the cultured and intellectual social strata of Roman Era Zeugma.
